The kitchen is a standout with its oversized island, quartz countertops, sleek black hardware, and upgraded lighting that adds a designer touch. LVP flooring runs throughout the main areas (low maintenance, high impact), while the bedrooms get the comfort treatment with carpet (because toes like cozy). Windows wrap the unit in lots of natural light - and window coverings are included! Bedrooms are separated for privacy, with the primary offering a spacious walk-through closet that flows into a modern ensuite. The second bedroom sits right beside a full bath - ideal for guests, roommates, or a home office setup. And don't forget the in-suite washer & dryer in the hall. Storage won't be a problem: there's a pantry, numerous closets and an extra storage locker, conveniently located in front of the titled underground parking stall. Outside, the private balcony is ready for summer with a built-in gas line, and A/C is already roughed in for when the heat hits.
